- Set your thermostat to around 68°F to 70°F while you're awake (and you can set it lower while you're sleeping or away from home to save energy).
- If you drive, make sure to check your tire pressure. Cold weather can cause low tire pressure and lower fuel economy. There are four complimentary air pumps on campus in Columbus. Gas stations often have free air pumps as well.

8.1. Resolution Regarding OTDI Policy on Licensing, Technology Accessibility, & Software Updates

8.1.1) Rationale for the Resolution

- **Daniel.508:** University has made decisions about technology without consulting with grad students or CGS. This resolution refers specifically to Adobe and OneDrive and recent changes made by the University to this software. The resolution asks specifically OTDI to ask CGS and grad students to get input before making changes to this software and communicating those changes effectively to CGS/grad students.

8.2.1) Q+A:

- **Q: Mace.103:** This doesn't take position on specifics on Adobe Access, are we waiting on data and why did you not include it here?
- **Daniel.508:** What specifics are you referring to?
- **Mace.103:** There was a survey on Adobe Access and how the new mode is not efficient and this wasn't included in the Resolution. Are you considering writing something on that with more data?
- **Daniel.508:** If you have that survey available, we'd be interested in putting that into the Resolution. Priority was given to Adobe and OneDrive and communicating decisions on that.
- **Q: Karaunakan.10:** Are we trying to get the University to keep the existing storage we already have?
- **Daniel.508:** Not asking University to turn around on the decision they made about the storage, but instead just asking for students' input before making big decisions like this. Give me one second, we thought about adding a line to the Resolution about this but didn't. If that was brought up during the discussion, we could discuss more.
- **Karanuakan.10:** What would have been the line?
- **Daniel.508:** The line would have talked about making a difference between undergraduate and graduate students, since students are just given storage as a whole and there's no difference between the two in terms of storage capacity. Because grad students are at a 0.5 FTE, creating a discrepancy between how it impacts graduate students and undergraduate students. We did not come to a conclusion on what that line would like look though, so we decided not to include it. I feel we could write a future resolution about this, depending on how this resolution goes.
- **Karanuakan.10:** What exactly is the memory limit that we intend to bring up? Are we trying to give them a minimum number that's needed for a grad student?

- **Daniel.508:** We did not determine a number.
- **Karanuakan.10:** Is there a way we could determine different amounts of storage for different graduate students?
- **Connor.280:** Point of privilege: this is great. But perhaps we should save some of this. I just wanna make sure that if other people have questions that we get to those as well, and make sure that we're freeing up for multiple people to have conversations.

- **Q: Arshad.32:** Did we know the motivation for the software changes?
- **Daniel.508:** We did not talk to anyone about these changes, did you Sabrina?
- **Connor.280:** I don't think we've met explicitly to talk about this. From our understanding, they're cost-cutting measures for the University.
- **Durso.19:** It has been brought up in University Senate steering. Largely, it seems faculty, staff and students are upset about the lack of communication, which is why we've kept it to just the communication issue. Arguing against cost-cutting measures is hard so communication was the priority.

- **Q: Lebeck.31:** For clarification, was no one consulted about this? Was it just random?
- **Daniel.508:** Regarding the decisions made?
- **Lebeck.31:** Yes
- **Daniel.508:** Checked my e-mail, as a Student Life employee, I was contacted via e-mail about Adobe. Some departments may have communicated this to their students, but grad students at large and CGS was not contacted which is the premise of this resolution.
- **Durso.19:** There was no centralized form of communication between faculty, students and staff for these changes.

- **Q: Arshad.32:** Are we demanding just the communication or a discussion before these changes are implemented too?
- **Daniel.508:** It's asking for them to have a discussion with us. We found a news article about the changes, but it was never communicated to us directly. Grad students shouldn't have to go out and find this information.

- **Booker.200:** Motion to extend our time by 2 min for a question?
- Seconded by **McDowell.310**
- Motion passes

- **Q: Booker.200:** What actionable items do you want the University to do in this Resolution? Do you want to consult CGS in a particular fashion? What constitutes a timely manner? The language is vague, and specifics would be helpful. What changes would this apply to in the future such as Adobe?
- **Daniel.508:** Future changes: Let's say OSU wants to move from Outlook to Gmail, they need to have a discussion with us, specifically CGS, and communicate it. Timely manner: I don't have any specifics since the time varies for these decisions already, but again this primarily advocating for the University to consult with CGS before making these changes.

8.3.1) Discussion:

CGS Representatives in other organizations as a way to communicate important issues

- **Fritz.288:** Comment for discussion: Do we have a CGS representative in ODTI? This could solve the problem of no communication.
- **Annerino.2:** As the CGS senator for University Senate Academic technology committee, I feel this is the natural way to give communication. It would be a natural way to give communication, but we were never informed which is why there's a push from everyone for more communication.
- **Lebeck.31:** Could we add more specific language about how we would communicate with us? Like telling them to go through this specific Senate committee that we have a CGS rep on.
- Move to add this to the Resolution by **Lebeck.31**

- Seconded by **Mace.103**
- **Lebeck.31**: Just want to add how specifically we would be communicated through. Given that this would be through the Senate committee, there will also be more faculty, students and staff representation in order to keep more informed. Since everyone seems to be against this, the Senate would be the best way to have this communicated.
- **Multerhopkins.1**: I think we should also add on that they include the CGS president at the time, sometimes we don't have a senator there and just in case the senator is absent from that session of the day, we keep them informed.
- **Durso.19**: Any other suggestions?
- **Miles.375**: Probably adding the University Research Committee would be a wise idea, because we have CGS members on there, and they have a lot of conversations with the Dean of Research I think and the University Libraries.
- **Daniel.508**: Does anyone have any opposition to the suggestion at hand before I make a motion to add it to the Resolution?
- **Mace.103**: Do we have grad reps on any ODTI bodies?
- **Connor.280**: Historically ODTI used to have an advisory technological committee, but they don't have the committee anymore. At least to my knowledge, there's not a standing committee advising ODTI.
- **Mace.103**: If they don't have reps, then we shouldn't include those avenues of communication to be more concrete.
- **Booker.200**: Can we add concrete language to urge the University to contact one of these avenues of communication? Language is wishy-washy and they won't contact unless it's more specific.
- Motion to extend by 3 min by **Mace.103**
- Seconded by **Booker.200**
- Motion passes

Amendment added: BE IT FURTHER RESOLVED that CGS believes that units making policy changes must contact at least one of the following bodies with graduate representation/graduate representatives: the University Senate and it's appropriate committees such as the Committee on Academic Technology (CAT), the University Research Committee (URC), and the CGS President and Academic Affairs Committee.

- **Daniel.508**: I move we include this statement in Line 86 of the current resolution.
- Seconded by **McDowell.310**
- Motion adopted

Adding a certain amount of storage requirement

- **Karanukan.10**: Can we put a line about a survey asking about the amount of storage that is favorable for all graduate students and to justify this change?
- **Teafatiller.1**: Do you mean they need to provide us justification for the storage change?
- **Karanukan.10**: Yes, why such a significant reduction?
- Motion to extend by 5 min by **McDowell.310**
- Seconded by **Multerhopkins.1**
- Motion passes
- **Connor.280**: This is not the time to offer multi-part motions. There needs to be a clear and specific motion on the floor. What I'm hearing is you want us to add a line asking the University to provide rationale for why the storage limit for graduate students has been reduced?
- **Karaunkan.10**: What I'm suggesting is some academic body passing a survey along to all grad students before they make a significant change to the amount of storage. The point of the survey would be just getting an average number for the amount of storage a graduate student needs.
- **Connor.280**: So you're wanting to add that there needs to be a feedback survey for any storage limit change. Do I hear a second for the motion?
- No second, motion will not be entertained

Clarifying language on University consulting grad students

- **Allen.2234**: Should we make the line "Must consider graduate students" more specific? The University could just say we were considered, but not actually do anything concrete with that. Did other people get that impression?

- **Connor.280:** So there's a motion on the floor to clarify this language, what does it mean to be considered? Do I hear a second?
- Seconded by **Booker.200**
- Motion passes
- **Connor.280:** Where do you want the specific changes?
- **Allen.2234:** Looking at the second to last section where it says 'must consider graduate students holistically across our roles'. Point of clarification: is this meant to say that by considering us you're directly contacting us?
- **Mace.103:** May I suggest 'consider and consult' graduate students, what do you think about that?
- **Allen.2234:** I liked 'directly consult'.
- **Lebeck.31:** I think the major point of that passage was that when the University thinks of grad students, they need to think of us as employees and researchers. That's what I took away from the passage. If not everyone else is getting that, then we can discuss more.
- Motion to extend by 4 min by **Daniel.508**
- Seconded by **McDowell.310**
- Motion passes
- **Daniel.508:** Clarification, it was to consider graduate students in multiple roles. This line specifically refers to graduate students who are a lot more just students. We're teachers, researchers, we have a lot of other roles. Whereas with the OneDrive policy, we're just lumped into students with the undergraduates even though we have multiple roles.
- **Miles.375:** Is it confusing that we just said directly consulting with us when we asked to indirectly consult with us through these committees. This statement could be at odds with the previous amendment.
- **Lebeck.31:** I was confused by the language but that makes sense.
- **Allen.2234:** That interpretation makes a lot more sense, I was confused by the language. Maybe we can say 'recognize' instead of 'consider' since that might be more direct.

Amendment added: BE IT FURTHER RESOLVED that CGS continues to reaffirm that the Ohio State University (and all its constituent units) must consider and acknowledge graduate students holistically across our multiple roles as students and employees (teachers, researchers and more) at OSU in order to properly consider and address graduate students' complex and interlinked needs with regard to education, research, professional development and more.

- Motion to adopt by **Lebeck.31**
- Seconded by **Daniel.508**
- Motion adopted
- **Arshad.32:** For future, I think this was a good discussion and for other discussions that we had in this session, I do think we should talk about them. We were kind of stuck between 2 different things for the amendments suggested, but I think even with this resolution, they will think more about future changes.
- Resolution passed

9. SPECIAL ORDER ITEM

5:22 PM

9.1. Delegate Issues and Concerns

9.1.1) Communication between Student Life and Housing/Family Affairs

- **Arshad.32:** Continuing the discussion earlier, we need similar resolutions for other areas of changes needed. They changed bus routes last year and due to cost-cutting had to take down specific routes. This affects people in choosing housing that they can get transportation to and from. We were never considered nor communicated in those changes, what can we do in those circumstances like CABS or RPAC hours or issues like this to get Student Life to talk to us about these changes?
- **Durso.19:** This is a complex issue when asking about Student Life. We should be communicated with for sure. Luke is on Health and Wellness Committee and was on a committee to deal with the consulting aspect of transportation, but I'll make sure we're advocating for this, I will ask. ODTI was not friendly when we asked so that's why the resolution, but this is easier to go and ask people about regarding transportation.

9.1.2) Library resources for International Students

- **Teafatiller.1:** International students in our department have a lot of different funding mechanisms, and because of this, sometimes they're not allowed to access Thompson libraries and other resources off-campus. They're not taking courses so they're not technically graduate students. Twice, I've had to download resources for them, is there something we can do to push the library when they knock off the access and make sure they're able to get class resources as students
- **Durso.19:** Go to Brian first because he's on one of those committees.
- **PerezSoto.2:** They have to connect to their VPN. They're free, some journals will let you login with your OSU credentials and keep an eye on VPN updates.
- **Allen.2234:** I use the VPN all the time to access things from off-campus. Cisco VPN has instructions.
- **Durso.19:** If issues arise, please reach out to me and I can contact OIA.
- **Teafatiller.1:** I'll have them test it out this weekend.
- **Arshad.32:** On the library website, they have a page about off-campus resources, lots of ways to do it. I believe there are URLs and links to be able to do this as well.

9.1.3) QR code for future Resolution accessibility

- **Chisam.1:** We just passed ODTI accessibility, can I put forth a motion that we include a link to addition to QR code for votes for accessibility reasons in the future for votes.
- **Durso.19:** I totally forgot and next time I will include a link.

9.1.4) Academic Coaching for grad students pulled due to funding

- **Chisam.1:** Has CGS been made aware that the Dennis Learning Center has removed academic coaching for graduate student?
- **Durso.19:** We haven't discussed but we are aware.
- **Connor.280:** We received an e-mail from them early semester and they notified us about funding issues. Their proposed solution was to get funding from CGS. We told them we can go advocate for funding but we don't have the budget to support that. We heard nothing back from them.
- **Durso.19:** Most of those funding issues come from underuse. That's why things are being pulled, I think it's a load of garbage but I can't do anything about that further regarding CGS funding, I'll talk to Dean Stromberger.
- **Chisam.1:** They had a survey on that page where that information used to be and it seems like they're implementing charging grad students \$50 a session.
- **Durso.19:** Great, I will talk to Dean Stromberger.

9.1.5) No more Zoom webinar access

- **Annerino.2:** Quick announcement: Price was gonna go up a lot and University was freaked out about not using Zoom anymore because of prices, but that's not going to happen. It was just a Webinar price increase and University isn't gonna do it anymore. That's why they talked about not using Zoom anymore.
- **Arshad.32:** What does webinar license include?

RE: President's Report

Welcome (back) CGSers,

I hope you all found time to rest throughout Winter Break. I spent quite a bit of mine as CGS President working with chairs to plan *eight* CGS events, speaking on a student leader panel at the National Association of Grad/Prof Students Winter Conference, and representing grad students alongside President Carter's team at various Rose Bowl activities such as volunteering at the LA Food Bank, watching the Rose Bowl Parade, and screaming my lungs out during that astounding Buckeye win!

Additionally, if you'd like to run for CGS President for the next academic year, please contact me! I'm more than happy to answer any questions anyone might have about the position!

Over the Past Month:

- **Exec:** We have been working diligently to plan various CGS events! Committee chairs and members, I value your work throughout the break! The university's deadlines are hectic but we made it through! I cannot wait to participate in the many events coming up this semester!
- Also, if you'd be interested in co-chairing Government Affairs and learning all things GA from The Madeline Carrola before she steps down as chair, please let me know!
- **Grad Council:** Grad Student Leave Policy recommendations are coming to Dean Stromberger soon, just working on finalizing the committee's thoughts. We also discussed the possibility of formalizing a policy on AI at Grad Council.
- **Steering/Senate:** We vote on the Chase Center's acceptance into OSU at our next meeting. Also, I have been advocating for better communication throughout Senate and they are developing a newsletter that I hope will help. I intend to bring the Resolution Regarding OTDI [...] to Senate as quickly as possible.
- **Events I attended on CGS's Behalf:** National Grad/Prof. Student Winter Conference; Rose Bowl Festivities

Working On:

- **CGS Newsletters:** WE OFFICIALLY HAVE A NEWSLETTER SYSTEM! Please advise your constituents that CGS has a new look and to send any feedback regarding the template my way!
- **Resolution Regarding OTDI [...]:** I intend to bring this resolution to the Chief Information Officer and Senate at the start of the semester with the CGS chair of Academic Affairs. I may have an update by the CGS meeting.
- **CAMPUS Act TaskForce:** We are officially starting to interview stakeholders to understand how best to combat antisemitism, Islamophobia, and anti-Christian

discrimination and hatred, harassment, bullying or violence towards others on the basis of religious identity on OSU's campus. If you'd like to provide insight, please contact me!

Updates from Past Delegate Issues and Concerns:

- **Dennis Learning Center:** Following up with Dean Stromberger on this front.

Warm regards and in solidarity always,

RE: Katie Conner Vice President's Report

Intro & Misc.

While Sabrina and I continue to be “on the clock” throughout the break, not much changes as most of the university goes dormant for a few weeks. I’ve included pertinent updates below as necessary for anything to draw attention to.

Internal Operations Updates

I have updated the website with the timelines and deadlines for all upcoming elections this spring (Officer, Senator, & Delegate). I’ll be working with Andy Vance (Parliamentarian) as he supports me in chairing this final round of elections for my role as VP and election chair. I’ll have timeline updates/reminders in all the reports (verbal and written) from now through April so everyone knows what to expect and when to expect it. It is bittersweet to say the least setting up this last round, but I’m excited to share some updates in a meeting or two as we propose some bylaw changes that will tweak and further refine how we run our elections.

Hayes Advanced Research Forum 38 - #49DaysTilHayes

Thanks to the massive push from CGSers sharing the CFP, the Graduate School pushing it out and emphasizing the opportunity to graduate faculty, and college deans pushing the CFP to students, we rocketed forward in applications over the three week extension, and had a 10-year high in applications! Committee members Deanna Holroyd, Joey Oteng, Casey Ortbahn, Sabrina Durso, and volunteer reviewer Blue Lerner deserve extra kudos for turning around abstract formatting and anonymity reviews out over 6 days during finals period so we could have a full 4 weeks for judges to do abstract scoring.

At this point (when I wrote the report on 1/6), abstracts are 30% scored, which is healthy given that the scoring is January 17th. I’ll send a few more reminders to judges in the next two weeks to be sure scoring is completed on time. After the 17th, we’ll hopefully have decisions rolling out right on time the following week. At that time, I’ll be renewing the search for day-of judges, as we have a few academic areas we’re short for.

Formal volunteering info and signups will be going out sometime next week, but we’ve had 40+ people already reach out in interest, which is a decent number. We still need more and will continue to recruit to be sure we have plenty, as there are usually late volunteering dropouts for various reasons. There’s no limit on how many people can get a CV line for this volunteering, so I’d rather share the wealth around to ensure a smooth day’s event.

Updates on My Committee Work

Throughout the fall semester I served on a committee evaluating the university’s needs and interests in name pronunciation software, as our previous contract was ending, and OSU wanted stakeholders to see what would be “best” moving forward. I tested software, attended demos, discussed with other committee members, and heard reports on cost, contracts, technology, and accessibility. At this time, the committee has recommended that we renew our contract with Namecoach. This is due to a number of factors including cost (of the tool itself in

addition to considerations of maintaining the current tool versus training hundreds of faculty and staff on a new one), accessibility, and current offerings (a concern expressed by a number of us included compatibility with Carmen and other relevant platforms for the myriad of roles using the software).

I was pleasantly surprised and delighted that we all agreed unanimously, and additionally that so much of the conversation surrounded not only the software choice specifically, but reinforcing the importance of name pronunciation software to increase inclusion, provide better networking and community-building opportunities, emphasize the value of diversity at OSU, and professional development across a number of fields where cultural-competency is a must for practitioners and researchers alike. We additionally included in our report the request that OSU increase its resources and training on the use of Namecoach, so that more folks know it exists, where to find it, and how to use it, as lack of training and knowledge of the software was a huge barrier cited by me as the Grad rep as well as IPC's rep and other members of the committee.

I'd be happy to give even more details to anyone curious! Just reach out to me.

I hope everyone enjoyed some of the beautiful snow earlier this week, and remained safe and warm throughout the first week of classes. Looking forward to seeing and chatting with folks on Friday.

Cheers y'all!

RE: Housing and Family Affairs Chair's Report

Hey all,

Happy New Year everyone! We have some promising updates regarding housing orientation for incoming students.

The HAFA committee met with OIA and OCCSE in December to discuss improving housing orientation for incoming students, particularly international students. Last year's orientation included a brief off-campus housing session (see [Pre Arrival 1 Presentation 1.pptx](#)), which primarily focused on OCCSE resources. However, we all agreed that there is a need for a more comprehensive guide to address the unique challenges international students often face in finding suitable housing, figure out family affairs, understanding lease agreements, and navigating local regulations.

During the meeting, we brainstormed potential topics for the orientation, but nothing was finalized. OIA wants to meet again in January to finalize the content and logistics. This orientation will also involve Student Legal Services (SLS) to inform students about important legal points regarding housing and renting policies. To ensure the orientation is truly helpful, they also want graduate and international student representatives to participate and assist with queries.

We will be collaborating with ISA to review the orientation content and potentially organize a focus group to gather further input and ensure we are addressing the most critical topics.

Next steps include:

- Collaborate with ISA to review content and potentially organize a focus group.
- Meeting with OIA, ISA, OCCSE, and SLS to finalize orientation content and logistics
- Gather CGS members input either through a survey or a focus-group.

Is you have any insights and suggestions for the orientation content. Please reach out at arshad.32@osu.edu.

We look forward to making the housing orientation a valuable resource for incoming students!

Stay smart and humble,

Hi Everyone,

Happy New Year to everyone. ISAC is working on following items:

- Planned for our two events- 'tax information' sessions and 'share your story' event. We aim to conduct them in February and March 2025. 'Share your story' event will take place on March 24, 2025. Venue and other modalities for the two events are being finalized. Final schedule for both events will be shared in next meeting.
- Documentation of useful resources (within and outside OSU) that might bridge information gap and help incoming international graduate students in navigating initial weeks at OSU. Maintaining those files as living documents and updating them periodically.
- Work in coordination with HAFA committee regarding student housing sessions for incoming international students.

We are always looking for new committee members who will help us grow and contribute positively to international graduate students experience at the OSU. So, please tell your friends and reach out (kumar.889@osu.edu) if you have any ideas and/or are interested in serving on the committee.

Wishing all a fruitful month ahead,

Hi,

RDO is drafting the email requesting for Overleaf Premium subscription to

- College of Arts & Sciences
- College of Engineering
- College of College of Food, Agricultural, and Environmental Sciences
- College of Public Health
- Fisher College of Business

The main reasons that we collected from the survey for why Overleaf Premium subscription is desirable for the students from these five colleges are the following:

- Faster compile speed
- Allow more than one collaborator
- Easier to credit contribution with tracking changes
- More autonomy over student research
- Streamlined journal submission and citations

Hello and happy new year!

SERC invites you to attend our Time for Change Week Presentation and Panelist Event on April 8th from 2:00 to 4:00 PM in the Ohio Union Great Hall Meeting Room 2 (flyer attached). Come listen to presentations by graduate students focused on sustainability research for the first hour, followed by a panel of faculty and staff answering questions about sustainability measures being taken by OSU.

If you are an OSU graduate or professional student doing research related to sustainability, please submit an abstract to present at this event! SERC is partnering with OSU's Time for Change Week to create space for OSU graduate and professional students to present their research related to sustainability. Short oral presentations (10-15 minutes) will give graduate students a great opportunity to practice their presentation skills and share their sustainability research with the wider OSU community.

If you are interested in presenting during this event, please fill out the form in the link below by February 16 at 11:59pm.

Your January sustainability tip is to BYOM (bring your own mug).

Opt for a reusable mug while enjoying your hot drink this winter. Here's a couple of reasons why:

1. Single-use coffee cups (especially those with plastic linings) are difficult to recycle. They contribute to environmental pollution, often ending up in landfills and oceans
2. It can save you money! Many coffee shops offer discounts when you BYOM
3. It enhances the drinking experience! Heavier glasses are shown to make drinks feel more substantial and luxurious

Stay warm!
